

Atmosphere (ATM)

Thursday, 20 March 1997

- | | |
|-------|---|
| 14:00 | Thomas Popp
Exploiting GOME and ATSR-2 data: First results of the PAGODA project |
| 14:20 | Rowan Dundas
Measurement of radiative properties of atmospheric aerosols using global data from ATSR |
| 14:40 | Phillip Watts
A survey of tropical and mid-latitude cirrus particle size and shape using ATSR-2 visible/near infrared data, |
| 15:00 | Frank Flechtner
Modeling of the ionosphere with PRARE |
| 15:20 | Sid-Ahmed Boukabara
Coupled analysis of active and passive microwave measurements. Attempt of retrieval improvement of geophysical parameters |
| 15:40 | Yong Xue
Use of ATSR data to estimate surface fluxes over land and sea |
| 16:00 | Albin Zavody
Cloud detection algorithms used in the processing of ATSR data into sea surface temperature |
