# Hyperspectral Workshop 2010

17–19 March 2010
Frascati, Italy

***Organised by***

**European Space Agency (ESA)**
**German Aerospace Center (DLR)**
**German Research Centre for Geoscience (GFZ)**
**Italian Space Agency (ASI)**

***European Space Agency***
***Agence spatiale européenne***

*Scientific Committee*
C. Ananasso (ASI, IT)
H. Bach (VISTA GEO, DE)
E. BenDor (Univ. of Tel Aviv, IL)
V. De Cosmo (ASI, IT)
R. Green (JPL, US)
D. Goodenough (NR, CA)
A. Held (CSIRO, AU)
P. Hostert (Humboldt-Universität zu Berlin, DE)
H. Kaufmann (GFZ, DE)
S. Lavender (Argans, GB)
R. Loizzo (ASI, IT)
M. Menenti (TU Delft, NL)
J. Moreno (Univ. of Valencia, ES)
A. Müller (DLR, DE)
B. Rock (Univ. of New Hampshire, US)
M. Schaepmann (Univ. of Zurich, CH)
K. Staenz (Univ. of Lethbridge, CA)

*Organising Committee*
B. Hoersch , M. Rast , M. Berger, P. Regner (ESA), C. Galeazzi, F. Longo, M. Ercoli (ASI),
G. Rossner, U. Heiden (DLR), H. Kaufmann (GFZ)

# CONTENTS

## Agriculture

*Chairs: J. Moreno & H. Bach*

Assessment of Leaf Area Index by the Red-Edge Inflection Point Derived from VENμS Bands
*I. Herrmann, A. Pimstein, A. Karnieli et al.*

Assessing Moisture Conditions of Heterogeneous Land Surfaces Through Hyperspectral Analysis of Water Absorption Features
*T. Hank, P. Marzahn, F. Schlenz & W. Mauser*

Parameterisation of the Land Surface Reflectance Model SLC for Winter Rape Using Spaceborne Hyperspectral CHRIS Data
*S. Migdall, N. Ohl & H. Bach*

Detecting and Monitoring Soil Salinity in Agricultural Lands Using Combined Hyperspectral Data and Chemical Measurements
*I. Livne, E. Ben Dor & N. Goldshleger*

Weeds Detection by Ground-Level Hyperspectral Imaging
*U. Shapira, I. Herrmann, A. Karnieli & D.J. Bonfil*

Potential of Hyperspectral Data for Urban Micro Climate Analysis
*W. Heldens, U. Heiden, T. Esch & S. Dech*

Information Extraction from Hyperspectral Data in Urban Areas Using Contextual Information and Classifier Fusion
*P. Gamba, F. Dell'Acqua, K. Bakos & G. Lisini*

## Geology / Soils & Land Cover / Land Surface Processes

*Chair: M. Menenti*

Application of Hyperspectral Spaceborne Data to Identify Sensitive Wetland Areas of Central Spain
*T. Schmid, J. Gumuzzio, M. Rodríguez & M. Koch*

Neural Network Algorithms for Nonlinear Spectral Unmixing Applied on Hyperspectral Data
*G.A. Licciardi*

Mapping Topsoil Organic Carbon of Agricultural Soils from Hyperspectral Remote Sensing Data
*T. Jarmer, P. Rosso & M. Ehlers*

Hyperspectral Sensing in Support of Mineral Exploration in the Arctic: Example from the Cape Smith Nickel Belt, Canada
*B. Rivard, D. Rogge, J. Jeng et al.*

The Potential of Hyperion Data to Discriminate Geomorphological Features in the Eastern Hindukush Northern Pakistan
*S.A. Mahmood, V. Liesenberg, A. Wijaya et al.*

## Inland Water / Ocean Colour

*Chair: S. Lavender*

Water Quality Assessment Using Hyperspectral Techniques for the River Main and its Riparian Water
*M. Friese, S. Migdall, H. Bach et al.*

Assessment of Chlorophyll-A and Algal Blooms in Inland Waters from Hyperspectral Data
*M. Bresciani, C. Giardino, M. Bartoli et al.*

Hyperspectral Applications for the Improvement of Water Quality Assessment and Monitoring in Coastal Areas
*F. Santini, L. Alberotanza, F. Braga et al.*

Biophysical and Morphological Study of Coastal Habitats from Imaging Spectrometry, LiDAR and *In Situ* Data Acquisition
*A. Taramelli, C. Giardino, L. Gasperini et al.*

## Vegetation & Forest

*Chairs: D. Goodenough & M. Schaepmann*

Fire Risk Assessment: The Role of Hyperspectral Remote Sensing
*C. Maffei & M. Menenti*

Image Spectrometry of Tropical Dry Forests in the Americas Using CHRIS/Proba
*V.E. García-Millán & G.A. Sánchez - Azofeifa*

Estimating Forest Parameters from Top-of-Atmosphere Radiance Measurements Using Coupled Radiative Transfer Models
*V. Laurent, W. Verhoef, J. Clevers & M. Schaepman*

Deriving Sun-Induced Chlorophyll Fluorescence from Airborne-Based Spectrometer Data
*A. Damm, A. Schickling, D. Schläpfer et al.*

Photochemical Reflectance Index from MODIS Satellite to Investigate Eddy Covariance Tower Light-Use Efficiency Variability in a Mediterranean Deciduous Forest
*R. Guarini, C.J. Nichol & M. Borghetti*

Spectroscopic Analysis of a Mediterranean Ecosystem Using CHRIS/Proba, *In-Situ* Leaf Spectra and Plant Measurements
*O. Sykioti, D. Paronis, A. Kyparissis & S. Stagakis*

Assessment of the Biomass and Nitrogen Status of Natural Grasslands Using Hyperspectral Remote Sensing
*L. Kooistra, H. Roelofsen, G.W.W. Wamelink et al.*

AISA and Multi-Angle CHRIS for Coastal Forest Classification
*D.G. Goodenough, K.O. Niemann, G.S. Quinn & H. Chen*

Relationships Between Tropical Rain Forest Biophysical Parameters and Off-Nadir Indices from Hyperion/EO-1
*V. Liesenberg & R. Gloaguen*

Retrieval of LAI from Airborne Hyperspectral and Airborne Laser Scanner Data Using a Canopy Reflectance Model
*H. Buddenbaum & J. Hill*

## Image Processing & Tools

*Chair: C. Brockmann*

Detecting and Correcting the Curvature Effect (Smile) in Hyperion Images by Use of MNF
*A. Dadon, A. Karnieli & E. Ben-Dor*

Vegetation Biophysical Variable Retrieval Using Object-Based Inversion of Hyperspectral CHRIS/Proba Data
*C. Atzberger & K. Richter*

Capabilities and Limitations of Methods for BRDF Characterization in Imaging Spectrometry Data
*J. Weyermann, A. Hueni, M. Kneubühler & M. Schaepman*

Independent Evaluation of EnMAP Sensor for the Geological Mapping in Arctic Canada
*H.P. White, L. Sun, R. Gauthier et al.*

Hyperspectral Image Fusion
*A. Garzelli, B. Aiazzi, S. Baronti et al.*

A Comparison of Feature Extraction Methodologies Applied on Hyperspectral Data
*G.A. Licciardi & F. Del Frate*

Hyperspectral Noise Modelling and Estimation
*B. Aiazzi, L. Alparone, S. Baronti et al.*

## Cal/Val & Atmosphere

*Chair: M. Cutter*

Australian Activities in Calibration and Validation for Hyperspectral Sensors
*T. Malthus, V. Brando, S. Jones et al.*

Operational Quality Control for Hyperspectral Data
*M. Bachmann, M. Habermeyer, A. Müller et al.*

Onboard Spectral Calibration for the Hyperspectral/Multispectral Sensors
*K. Tatsumi, N. Ohgi, H. Harada et al.*

A Conceptual EnMAP Mask Product
*X. Wang, R. Richter, M. Bachmann & A. Müller*

Feasibility of Aerosols Retrievals from Hyperspectral Data
*F. Del Frate, A. Di Noia, P. Sellitto & G. Curci*

## Missions & Concepts Air and Space

*Chairs: H. Kauffmann & S. Briggs*

A Ten Year Summary of NASA's Earth-Observing One (EO-1) Mission
*E.M. Middleton, D.J. Mandl, P.K. Campbell et al.*

EnMAP Hyperspectral Mission - The Space Segment
*S. Hofer, K.-P. Förster, B. Sang et al.*

Simulation of EnMAP-Like Hyperspectral Images Based on Textural Information and a Radiative Transfer Approach
*S. Migdall, H. Bach & H. Kaufmann*

Prisma Payload
*P. Marrucci, M. Dami, L. Giunti et al.*

Apex Status Pt.1: Instrument Development and Performance
*E. Alberti, F. Dell'Endice, P. D'odorico et al.*

Hypxim – A Hyperspectral Satellite Defined for Science, Security and Defence Users
*S. Michel, M.-J. Lefèvre-Fonollosa & S. Hosford*

## Posters

*In Alphabetical Order*

CHRIS-Proba Data Classification for Mapping Dryland Salinity in Tunisia
*R. Abdelfattah*

Advanced Methodologies for the Analysis, Integration and Optimization of Prisma Mission Products
*A. Barducci, S. Baronti, R. Carlà et al.*

Advanced Imaging Interferometers and Spectrometers: New Perspectives in Earth Observation
*A. Barducci, D. Guzzi, C. Lastri et al.*

CHRIS/Proba-1 Acquisitions on San Rossore Test Site for the ESA SEN3EXP Campaign
*A. Barducci, D. Guzzi, C. Lastri et al.*

Quantitative Derivation of Key Soil Parameters on the Basis of Hyperspectral Remote Sensing Data: A Study to Detect and Monitor Degradation in the Subtropical Thicket Biome, South Africa
*A. Bayer, A. Müller, M. Bachmann et al.*

The Advantages of Boresight Effects in the Hyperspectral Data Analysis
*A. Brook & E. Ben-Dor*

Fusion of Hyperspectral Images and LIDAR Data for Civil Engineering Structure Monitoring
*A. Brook, E. Ben-Dor & R. Richter*

Improving Hyperspectral, Multidirectional Analysis of Proba/CHRIS Observations by Angular Signatures from the Same Data Set
*M. Buchhorn & T. Schneider*

Mixtures at Macro-Scale: Natural Surface Scenarios from Makhtesh Ramon Crater, Israel
*E. Carmina & V. Carrère*

A Review of Superresolution Enhancements for Hyperspectral CHRIS/Proba Images
*J.C.-W. Chan*

The Processing and Calibration Activities of the Future Hyperspectral Satellite Mission EnMAP
*A. de Miguel, M. Bachmann, C. Makasy et al.*

Satellite Hyperspectral Remote Sensing Potential for Vegetation Cover Mapping in a Fragmented Ecosystem: Pollino National Park, Italy
*L. Fusilli, C. Bassani, R.M. Cavalli et al.*

Design of a Co-Processor for Analysing Hyperspectral Images
*G. Galeano, A. Cristo, R. Mª Pérez et al.*

VNIR-SWIR Imaging Spectrometry and Mapping of Terrain Properties: Preliminary Results from the Mugello Area
*F. Garfagnoli, L. Innocenti, S. Vettori et al.*

Concept for Improved Radiometric Calibration of Radiance Sources at the CHB Facility
*P. Gege, J. Fries, P. Haschberger et al.*

Spectrometric Analyses in Comparison to the Physiological Condition of Heavy Metal Stressed Floodplain Vegetation in a Standardised Experiment
*C. Götze, A. Jung, I. Merbach et al.*

Ground Segment Design of the EnMAP Hyperspectral Satellite Mission
*M. Habermeyer, T. Storch, S. Eberle et al.*

User Interface of the EnMAP Ground Segment
*U. Heiden, J. Gredel, N. Pinnel et al.*

Towards Multi-Temporal Hyperspectral Images Classification Based on 3D Signature Model and Matching
*S. Hemissi, K.S. Ettabaa, I.R. Farah & B. Soulaiman*

Hyperspectral Mission Requirements as Defined by a Combined Science/Defence Expert Group Established by CNES
*S. Hosford, M.-J. Lefevre, S. Michel et al.*

The Spectral Database Specchio in Support of CAL/VAL Activities
*A. Hueni & M. Kneubuehler*

An Integrated Band Selection Using Spatial and Spectral Information
*M. Kala Muthumari & R.Vidhya*

Improved Microphytobenthos Biomass Mapping Using Hyperspectral Images
*F. Kazemipour, P. Launeau, V. Méléder & L. Barillé*

An Intercomparison of Analytical Inversion Approaches to Retrieve Water Quality for Two Distinct Inland Waters
*E. Knaeps, D. Raymaekers, S. Sterckx & D. Odermatt*

Hypso (Hyperspectral Sokolov): A Multidisciplinary Hyperspectral Project Assessing Mining Related Impacts by Means of Image Spectroscopy
*V. Kopačková, J. Albrechtová, Z. Lhotáková et al.*

Spectral Signatures of Burned Surfaces: Evidence from Hyperspectral Remote Sensing Data
*N. Koutsias, M. Pleniou, F. Nioti & G. Mallinis*

Uniseasonal Dynamics of Main Water Quality Parameters in Vistula Lagoon Extracted from Envisat/MERIS Geophysical Product and *In Situ* Measurements
*M. Kruk, M. Mróz, L. Nawrocka et al.*

Development of an Operational System for Monitoring and Predicting the Aquatic Plants Proliferation in the Lake Victoria
*G. Laneve, R.M. Cavalli, L. Fusilli et al.*

Features Extraction from Hyperspectral Images: An Approach Based on Spectral, Textural and Spatial Information Applied to Urban Environments
*M. Lazzarini & F. Del Frate*

Estimation of Radiometric Uncertainty after Smile Correction
*K. Lenhard & A. Baumgartner*

The Potential of Hyperion/EO-1 and CHRIS/Proba Data to Discriminate Tropical Successional Forest in Eastern Amazon
*V. Liesenberg & R. Gloaguen*

Discriminating Brazilian Savanna Physiognomies with CHRIS/Proba Data: A Case Study in Pandeiros Site
*V. Liesenberg & R. Gloaguen*

The Relative Spectral Variance of the Grassland Red-Edge and Weathered Asphalt
*G.M. Llewellyn, B. Taylor, P. Land et al.*

Hyperspectral Image Analysis for Sustainable Management of Natural Resources
*A. Lo Tauro*

Experiences about the Acquisition and the Processing of Aerial Hyperspectral Data Using VNIR – SWIR Imaging Spectrometers
*A. Losurdo, C. Fazio, B. Lacovara et al.*

Estimation of Norway Spruce Leaf Chlorophyll Content from CHRIS/Proba Satellite Image Data
*P. Lukeš, Z. Malenovský, V. Kaplan et al.*

High Performance Fore Optic Accessories and Tools for Reflectance and Radiometric Measurements with the ASD FR3 Spectroradiometer
*T.J. Malthus & C.J. MacLellan*

Implementation of Hyperion Sensor Routine in 6SV Radiative Transfer Code
*E. Mandanici*

Hyper and Multispectral Image Analysis in North-Eastern Libyan Desert
*E. Mandanici, G. Bitelli & P.V. Curzi*

Ground-Based Long-Term Unattended Hyperspectral Measurements of Vegetated Surfaces: Instrumentation and Collected Data
*M. Meroni, S. Cogliati, M. Rossini et al.*

Contextual Classification of Hyperspectral Images by Support Vector Machines and Markov Random Fields
*G. Moser, S.B. Serpico & M. De Martino*

From Field Spectra to an Area-Wide Monitoring – A Case Study in a Dryland Nature Reserve in Germany
*C. Neumann, S. Förster & S. Itzerott*

PM Mapper: An Air Quality Monitoring System with Fine Spatial Resolution Product and Intergrated Surface Information
*T.N.T. Nguyen, M. Bottoni & S. Mantovani*

Towards the Simulation and Inversion of User-Defined Inland Water Imaging Spectrometer Data
*D. Odermatt, E. Knaeps, D. Raymaekers et al.*

Remote Sensing of Vegetation Status Using Hyperspectral Data
*C. Panigada, R. Colombo, M. Meroni et al.*

Effect of Aerosols on Narrowband Indices and Band Depths from CHRIS/Proba: Case Study on a Phlomis Fruticosa Ecosystem
*D. Paronis, O. Sykioti & A. Kyparissis*

Hyperspectral Remote Sensing Capability for Mapping Near-Surface Asbestos Deposits and Pollutants Dispersion in Soils
*S. Pascucci, C. Bassani, R.M. Cavalli et al.*

Simulation of EnMAP Measured Cereal Canopy Spectra – Challenges Posed by Varying Observation Geometry and Plant Phenology
*T. Peisker, D. Spengler, K. Segl et al.*

Soil Salinity Mapping Using CHRIS-Proba Hyperspectral Data
*O. Satir, S. Berberoglu, S. Kapur et al.*

Concept for Fast Spectral Characterisation of Imaging Spectrometers
*C.J. Schwarz, K. Lenhard & P. Gege*

Simulation-Based Case Studies for Optimization of Sensor Design and Image-Based Parameter Retrieval Using the EnMAP Scene Simulator
*K. Segl, L. Guanter & H. Kaufmann*

Using the Minnaert-*K* Parameter Derived from CHRIS/Proba Data for Forest Heterogeneity Mapping
*J. Verrelst, J.G.P.W. Clevers & M.E. Schaepman*

Opairs – Optical Airborne Remote Sensing and Calibration Facility
*S. Weide, P. Gege, C. Schwarz et al.*

Performance of the Prospect Leaf Radiative Transfer Model Version 4 for Norway Spruce Needles
*L. Yáñez-Rausell, Z. Malenovský, J. Clevers & M.E. Schaepman*

**Sessions Summaries**

**List of Participants**
